Subject - Out break of Plague in Davangere Town

Sir,

I have the honour to state that plague has broken out in Davangere Town since the first week of this month and there have been seven attacks and six deaths upto this date Measures for conibating the epidimic were immediately undertaken The infected houses have been disinfected and inoculations also done in the affected areas Intensive inoculation in the town is quite necessary in order to check the further spread of discease The local Assistant Surgeon who was written to conduct the inoculation work has stated, that it is not possible to spare the services of his assistants for the purpose both morning and evening since one of them has to attend inoculation duty in the neighbouring villages where also the disease has appeared and that anotner is required to attend the hospital duty

Where upon the matter was considered by the Municipal Council at their meeting held on 16-7-41 when they resolved that a special duty Sub Assistant Surgeon may be entertained for one month Vide copy of their resolution enclosed for kind information

It is felt very desirable to conduct inoculation in the several parts of the town both in the morning and evening since the infection is in the thickly populated and congested areas and likely to spread if adequate preventive measures are not adopted

Hence I request you to kindly depute a Sub Assistant Surgeon on a minimum pay in the last grade immediate as done in the previous occassions for conducting inoculation work as resolved

as resolved by the Municipal Council
